

10Alytics

10alytics Consistency Project

GUIDELINE

Step1:

Each participant should create a personalized learning hashtag, for example, #First/LastNameBusinessAnalysisJourneywith10alytics, and use a common hashtag #BusinessAnalysisWith10alytics, specifically tailored to the 10Alytics/Course.

Step 2:

Students are encouraged to actively document their learning journey using their individual hashtags. The aim is for students to regularly share what they have learned from the course curriculum and how it contributes to their personal growth.

Step 3:

Students will be sharing their progress on the social media of their choice (LinkedIn/Twitter/Threads) using the hashtag they have chosen for themselves. By implementing these steps, participants will be able to foster a supportive community of learners, share insights, and inspire others to engage in the learning process. Additionally, it will facilitate tracking and interaction with the participants' learning experiences.

Sample:

Day 0 of 60

-- Come up with a simple write to commit to the 10Alytics 60 days of consistency

Day 1 of 60

- - Write what you learnt and use your hashtags #UbongBusinessAnalysisJourneyWith10alytics, #BusinessAnalysisWith10alytics

10Alytics

GOODLUCK

**CONSISTENCY
IS THE KEY
TO
SUCCESS**
